EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Patch on February 28, 2008.
3. The application has been amended as follows:
4. Please cancel Claim 2.
5. Please rewrite the Claim 1 as follows:

-----1. An ostomy device connection which is intended to connect a collection pouch (42) to a fixing device (30) which is intended to be adhesively-bonded to the skin of a user, the connection serving:

to transmit the weight of the collection pouch (42) to the fixing device (30),
to position the pouch (42) relative to the fixing device (30) so that a hole (36) of the fixing device is in communication with a hole (48) of the collection pouch, and to provide sealing between the collection pouch (42) and the fixing device (30),
the connection comprising a first connection portion (34) which is fixedly joined to the fixing device and a second connection portion (46) which is fixedly joined to the collection pouch,

one of the connection portions having an adhesive surface which is covered before use by a removable protective sheet and the other connection portion having an adhesion strip, so that

the two connection portions (14, 34, 46) can co-operate with each other by means of adhesive-bonding in a plane which is practically perpendicular relative to the axes of the holes (14, 36, 48) of the pouch and the fixing device, and the transmission of the weight of the collection pouch (42) and the sealing between the fixing device (30) and collection pouch (42) are provided by means of adhesive-bonding, the collection pouch (42) and the fixing device comprising complementary fixing elements which are intended to limit the possibilities for relative displacement of the pouch (42) and the fixing device (30) so that the two connection portions have practically only one possible relative position when they are adjacent, this position corresponding to the alignment of the holes (36, 48) of the fixing device (30) and the collection pouch (42),

wherein the protective sheet (72) of the adhesive layer has the feature of being able to be removed from the adhesive surface after the complementary fixing elements have been brought into co-operation,

wherein the complementary fixing elements form an articulation device which delimits a pivot axis (40) remote from the holes of the fixing device (30) and the collection pouch (42), the protective sheet being practically entirely at only one side of the pivot axis. -----

REASONS FOR ALLOWANCE

6. Claims 1, and 3-14 are allowed over the prior art of record.
7. The following is an examiner's statement of reasons for allowance:

8. The specific limitation of the articulation device which delimits a pivot axis (40) remote from the holes of the fixing device (30) and the collection pouch (42), formed by complementary fixing elements is not anticipated or made obvious by the prior art of record .

9. The closest prior art of record, US 4,846,798 teaches complementary fixing elements (46, 19a) for collection pouch and a fixing device (See Fig. 2 and 3). However US 4,846,798 fails to teach or suggest the articulation device which delimits a pivot axis (40) remote from the holes of the fixing device (30) and the collection pouch (42). Although articulation devices are known in the art, however combination of device recited in the instant claims with an ostomy pouch described in the instant claims would not be obvious.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ILYA Y. TREYGER whose telephone number is (571)270-3217. The examiner can normally be reached on 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tatyana Zalukaeva can be reached on 571-272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
